United Production is a tank battery comprised of 10 above ground storage tanks. The site was referred to EPA by La Department of Natural Resources. They indicated that the facility is abandoned. The facility currently contains approximately 1000 barrels of oil and oily waste. Tanks are in poor conditions and have leaked in to the containment. The tank battery is located in a low area and is subject to flooding.

For additional information, visit the **Pollution Report** ([POLREPs](#)) section.
